

iPhone and iPad Safari Users Notes:

- *When trying to view documents in the GoPrime Portal clicking on View Documents or the document links in Review Documents does not do anything.*

1. If you are using the Safari browser on an iPhone or iPad (default on iPhone) we recommend that you go into Settings, Safari and make sure Block Pop-ups is not enabled/green. Safari by default will block any documents that they need to view in the Portal. You will still be asked if you want to view the popup:
